CALIFORNIA LEGISLATURE—2009–10 REGULAR SESSION

ASSEMBLY BILL

No. 386

Introduced by Assembly Member Ruskin
(Coauthors: Senators Huff and Romero)

February 23, 2009

An act to amend Section 67302 of, and to add Section 67302.5 to, the Education Code, relating to postsecondary education.

LEGISLATIVE COUNSEL'S DIGEST

AB 386, as amended, Ruskin. Public postsecondary education: instructional materials: disabled students.

Existing law requires publishers and manufacturers of printed instructional material for use at public postsecondary educational institutions to provide the material, upon request, in an electronic format that is compatible with commonly used braille translation and speech synthesis software, when those materials are to be used by a student whose disability prevents him or her from using standard instructional materials and other requirements are met.

Existing law also requires publishers and manufacturers to provide computer files or other electronic versions of nonprinted instructional materials, defined to include materials that require the availability of electronic equipment in order to be utilized, when technology is

available to convert those nonprinted materials to a format that is compatible with braille translation or speech synthesis software.

The bill would additionally require publishers, as defined, to provide a captioned format of instructional materials, as defined, or an electronic format of those materials and a license to create a captioned format of the materials, upon request by a public postsecondary educational institution, and would authorize the public postsecondary educational institution to create a captioned format, subject to prescribed conditions, if the publisher provides a license to create the captioned format or fails to respond to a request for a captioned format.

The bill would prescribe various requirements with respect to a public postsecondary educational institution's use and distribution of captioned formats of instructional materials.

The bill would also make conforming changes.

Vote: majority. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 67302 of the Education Code is amended

4 that publishes or manufactures printed instructional materials for
5 students attending the University of California, the California State
6 University, or a California Community College, shall provide to
7 the university, college, or particular campus of the university or
8 college, for use by students attending the University of California,
9 the California State University, or a California Community College,
10 any printed instructional material in an electronic format mutually
11 agreed upon by the publisher or manufacturer and the college or
12 campus. Computer files or electronic versions of printed
13 instructional materials shall maintain the structural integrity of the
14 printed instructional material, be compatible with commonly used
15 braille translation and speech synthesis software, and include
16 corrections and revisions as may be necessary. The computer files
17 or electronic versions of the printed instructional material shall be
18 provided to the university, college, or particular campus of the
19 university or college at no additional cost and in a timely manner,
20 upon receipt of a written request that does all of the following:

1 (1) Certifies that the university, college, or particular campus
2 of the university or college has purchased the printed instructional
3 material for use by a student with a disability or that a student with
4 a disability attending or registered to attend that university, college,
5 or particular campus of the university or college has purchased the
6 printed instructional material.

7 (2) Certifies that the student has a disability that prevents him
8 or her from using standard instructional materials.

9 (3) Certifies that the printed instructional material is for use by
10 the student in connection with a course in which he or she is
11 registered or enrolled at the university, college, or particular
12 campus of the university or college.

13 (4) Is signed by the coordinator of services for students with
14 disabilities at the university, college, or particular campus of the
15 university or college or by the campus or college official
16 responsible for monitoring compliance with the Americans with
17 Disabilities Act of 1990 (42 U.S.C. 12101 et seq.) at the university,
18 college, or particular campus of the university or college.

19 (b) An individual, firm, partnership, or corporation specified in
20 subdivision (a) may also require that, in addition to the conditions
21 enumerated above, the request shall include a statement signed by
22 the student agreeing to both of the following:

23 (1) He or she will use the electronic copy of the printed
24 instructional material in specialized format solely for his or her
25 own educational purposes.

26 (2) He or she will not copy or duplicate the printed instructional
27 material for use by others.

28 (c) If a college or university permits a student to directly use
29 the electronic version of an instructional material, the disk or file
30 shall be copy-protected, or the college or university shall take other
31 reasonable precautions to ensure that students do not copy or
32 distribute electronic versions of instructional materials in violation
33 of the Copyright Revisions Act of 1976, as amended (17 U.S.C.
34 Sec. 101 et seq.).

35 (d) An individual, firm, partnership, or corporation that publishes
36 or manufactures nonprinted instructional materials for students
37 attending the University of California, the California State
38 University, or a California Community College shall provide
39 computer files or other electronic versions of the nonprinted
40 instructional materials for use by students attending the University

1 of California, the California State University, or a California
2 Community College, subject to the same conditions set forth in
3 subdivisions (a) and (b) for printed instructional materials, when
4 technology is available to convert these nonprinted instructional
5 materials to a format that maintains the structural integrity of the

7 translation and speech synthesis software.

8 (e) For purposes of this section:

9 (1) "Instructional material or materials" means textbooks and
10 other materials written and published primarily for use by students
11 in postsecondary instruction that are required or essential to a
12 student's success in a course of study in which a student with a
13 disability is enrolled. The determination of which materials are
14 "required or essential to student success" shall be made by the
15 instructor of the course in consultation with the official making
16 the request pursuant to paragraph (4) of subdivision (a) in
17 accordance with guidelines issued pursuant to subdivision (i).
18 "Instructional material or materials" does not include nontextual
19 mathematics and science materials until the time software becomes
20 commercially available that permits the conversion of existing
21 electronic files of the materials into a format that is compatible
22 with braille translation software or alternative media for students
23 with disabilities.

24 (2) "Printed instructional material or materials" means
25 instructional material or materials in book or other printed form.

26 (3) "Nonprinted instructional materials" means instructional
27 materials in formats other than print, and includes instructional
28 materials that require the availability of electronic equipment in
29 order to be used as a learning resource, including, but not
30 necessarily limited to, software programs, video disks, and video
31 and audio tapes.

32 (4) "Structural integrity" means all of the printed instructional
33 material, including, but not limited to, the text of the material,
34 sidebars, the table of contents, chapter headings and subheadings,
35 footnotes, indexes, glossaries, and bibliographies. "Structural
36 integrity" need not include nontextual elements such as pictures,
37 illustrations, graphs, or charts. If good faith efforts fail to produce
38 an agreement pursuant to subdivision (a) between the publisher or
39 manufacturer and the university, college, or particular campus of
40 the university or college, as to an electronic format that will

1 preserve the structural integrity of the printed instructional material,
2 the publisher or manufacturer shall provide the instructional
3 material in ASCII text and shall preserve as much of the structural
4 integrity of the printed instructional material as possible.

5 (5) "Specialized format" means braille, audio, or digital text
6 that is exclusively for use by blind or other persons with
7 disabilities.

8 (f) Nothing in this section shall be construed to prohibit a
9 university, college, or particular campus of the university or college
10 from assisting a student with a disability by using the electronic
11 version of printed instructional material provided pursuant to this
12 section solely to transcribe or arrange for the transcription of the
13 printed instructional material into braille. In the event a
14 transcription is made, the campus or college shall have the right
15 to share the braille copy of the printed instructional material with
16 other students with disabilities.

17 (g) The Chancellor of the California Community Colleges, the
18 Chancellor of the California State University, and the President
19 of the University of California may each establish one or more
20 centers within their respective segments to process requests for
21 electronic versions of instructional materials pursuant to this
22 section. If a segment establishes a center or centers, each of the
23 following shall apply:

24 (1) The colleges or campuses designated as within the
25 jurisdiction of a center shall submit requests for instructional
26 material made pursuant to paragraph (4) of subdivision (a) to the
27 center, which shall transmit the request to the publisher or
28 manufacturer.

29 (2) If there is more than one center, each center shall make every
30 effort to coordinate requests within its segment.

31 (3) The publisher or manufacturer of instructional material shall
32 be required to honor and respond to only those requests submitted
33 through a designated center.

34 (4) If a publisher or manufacturer has responded to a request
35 for instructional materials by a center, or on behalf of all the centers
36 within a segment, all subsequent requests for these instructional
37 materials shall be satisfied by the center to which the request is
38 made.

39 (h) Nothing in this section shall be deemed to authorize any use
40 of instructional materials that would constitute an infringement of

1 copyright under the Copyright Revision Act of 1976, as amended
2 (17 U.S.C. Sec. 101 et seq.).

3 (i) The governing boards of the California Community Colleges,
4 the California State University, and the University of California

19 be a violation of Section 54.1 of the Civil Code.

21 a captioned format, as defined in paragraph (1) of subdivision (a)
22 of Section 67302.5, of an instructional material, as defined in
